ABOUT ME

Bachelor of Commerce graduate with a strong foundation in financial analysis, accounting, and economics. I recently sat the CFA Level 1 exam (results pending), demonstrating my commitment to developing professional-level investment knowledge. I am interested in asset management and investment research, specifically with a focus on equity analysis, portfolio construction, and risk-return evaluation and optimisation. Seeking an entry-level, contract, or graduate opportunity within an investment-focused team, where I can apply my current knowledge, learn from experienced professionals, and develop the skills required for a long-term career in the investment profession.
